

1. abiotic
2. sunlight
3. biotic
4. insects
5. adaptations
6. temperature / precipitation
7. latitude
8. terrestrial
9. climatograph
10. structural
11. physiological
12. behavioural
13. elevation
14. biome
15. climate
16. boreal forest
17. desert (hot)
18. niche
19. habitat
20. ecological hierarchy
21. ecosystem
22. species
23. mutualism
24. population
25. symbiosis
26. parasitism
27. community
28. commensalism
29. competition
30. predation
31. mimicry
32. food chain
33. producers
34. consumers
35. trophic level
36. decomposers
37. detritivores
38. food pyramid
39. decomposition
40. biodegradation
41. herbivore
42. carnivore
43. omnivore
44. food web
45. primary producer / primary consumer / secondary consumer / tertiary consumer
first trophic level / second trophic level / third trophic level / fourth trophic level
46. biomass
47. photosynthesis
48. cellular respiration
49. 10 %
50. nitrogen fixation
51. nitrification
52. denitrification
53. nutrients
54. weathering
55. leaching and runoff
56. Earth's crust
57. dissolving
58. marine life
59. organic matter in soil
60. bioremediation
61. bioaccumulation
62. keystone species
63. carbon sink
64. biomagnification
65. biosphere
66. biodiversity
